Based on the high levels of immigration growth it has been predicted that around 236,000 additional homes will be required by 2016 to meet the population demand⁵. In Auckland alone it's anticipated that almost 10,000 extra rental properties will be needed each year for the next 10 years - a rate far above the demand for the past 10 years.

With demand for properties showing no sign of slowing, now is the perfect time to take advantage of our Residential Property Investment team. Talk to us today.
